Project      : Sales Analysis using SQL
File Name    : 04_KPIs.sql
Author       : Om Tripathi
Email        : omt7060@gmail.com

Description :
This script calculates the Key Performance Indicators (KPIs)
required to evaluate the overall business performance.

KPIs Included:
1. Total Sales Revenue
2. Total Quantity Sold
3. Average Sales Amount
4. Total Transactions
5. Highest Sale
6. Lowest Sale
7. Total Profit
8. Profit Margin
